```
G                              C       G                       C
Up all night I could not sleep, the whiskey that I drank was cheap
        G                       C               D     D7
With shakin' hands I went and I lit up my last cigarette
            G               C       G                       C
Well the sun came, night had fled, and sleepy-eyed I reached my bed
  G                         C           G     G7
I saw you sleepy dreamin' there all covered and warm
```

```
                   C               Bm      Bb          C
CHORUS:  South city midnight lady, I'm much obliged indeed
               C               Bm      Am       G    G7
       You sure have saved this man who's soul was in need
               C               Bm      Bb          C
       I thought there was no reason, for all these things I do
                   C               Bm      Am       G
       But the smile that I sent out returned with you
```

```
        G                       C       G                       C
When day has left the night behind, and shadows roll across my mind
        G                       C               D     D7
I sometimes find myself alone out walking the street
            G                       C       G                       C
Yes, and when I'm feelin' down and blue, then all I do is think of you
        G                       C       G     G7
And all my foolish problems seem to fade away
```

```
             C                        Bm           Bb                   C
CHORUS:  South city midnight lady, I'm much obliged indeed
                  C                        Bm           Am             G      G7
         You sure have saved this man who's soul was in need
             C                        Bm           Bb                   C
         I thought there was no reason, for all these things I do
                  C                 Bm           Am            G
         But the smile that I sent out returned with you
```
